

Dear Sixth Grade Parents and Guardians,

I hope you are doing well. For our summer math homework, students will be using IXL's "Summer Spotlight" skill plan. Students will have the entire summer to complete the 20-day math review. My recommendation is to complete ten days in July and the remaining ten days in August.

How students log in and access the skill plan:

Students will log in using their first name initial, last name, @teaneckcharter, and the password is review20.

Example: John Smith

Username: jsmith@teaneckcharter

Password: review20

Once students log in, they will select "Skill plans" (located below the "Diagnostic" tab). Then, they will choose the grade they will be entering in September. If you have any questions, please feel free to contact me. Thank you for your continued support and have a great summer.

Sincerely,

Ms. Yoon
